

Relationships and Health Education

Our Christian Vision is that - Everyone is welcome.

Everyone who spends time learning and growing at Longhoughton is encouraged to reach their full potential with **courage, compassion and creativity** to make a difference in the future. We are **respectful** of God's world, working together to create a loving and caring **community**.

This is founded in 1 Peter 4:10 - 11 "God has given each of you a gift from his great variety of gifts. Use them well to serve one another."

Statement of Intent

At Longhoughton CE Primary School, we understand our responsibility to deliver a high-quality, age appropriate and evidence based relationships and health curriculum for all of our pupils. Both our policy and practise will '*ensure pupils are able to cherish themselves and others as unique and wonderfully made, and to form healthy relationships where they respect and offer dignity to others.*' (SIAMS schedule 2018)

This policy sets out the framework for our relationships and health curriculum providing clarity on how it is informed and delivered. In developing this policy we have followed the principles in the Church of England Charter for faith sensitive and inclusive relationships education (Rel Ed) and health education (RHE) (Appendix 1)

We are committed to making reasonable adjustments wherever possible to promote accessibility and inclusivity of the curriculum. We understand that pupils with SEND or other needs (such as those with social, emotional or mental health needs) are entitled to learn about relationships and health education and the programme will be designed to be inclusive of all pupils.

The aim of Rel Ed is to provide balanced factual information about physical and emotional changes, together with consideration of the broader emotional, ethical, religious, and moral dimensions of health and relationships.

Our Rel Ed programme aims to prepare pupils for an adult life in which they can:

- develop positive values and a moral framework that will guide their decisions, judgements and behaviour.
- have the confidence and self-esteem to value themselves and others and respect for individual conscience and the skills to judge what kind of relationship they want.
- understand the consequences of their actions and behave responsibly within personal relationships.
- avoid being pressured into uncomfortable or dangerous situations.
- communicate effectively by developing the appropriate language for relationship issues.
- have an understanding of seeking permission and consent
- develop awareness of their evolving sexuality, gender identity, challenge sexism and prejudice, which is inclusive to all children and young people.
- have sufficient information and skills to protect themselves in a variety of situations including from exploitation.
- be aware of sources of help and acquire the skills and confidence to access advice and support if necessary.

Legal Framework

This policy has been developed with regard to legislation and statutory guidance including:

- Section 80A of the Education Act 2002
- Children and Social Work Act 2017
- The Relationships Education, Relationships and Sex Education and Health Education (England) Regulations 2019
- Equality Act 2010
- DfE (2019) 'Relationships, Education, Relationships and Sex Education (RSE) and Health Education'
- DfE Guidance 'Plan your relationships, sex and health curriculum' - Information to help school leaders plan, develop and implement the new statutory curriculum. September 2020

This policy works in conjunction with the following policies:

- Child protection and Safeguarding (including child sexual exploitation)
- Behaviour
- SEND
- Equal Opportunities
- Mental Health and Well-being
- Confidentiality
- Social, Moral and Cultural

Definitions

For the purposes of this policy "**Relationships education**" (**Rel Ed**) is defined as teaching pupils about the building blocks of healthy, respectful relationships, focusing on family and friendships, including on and off line. It gives children and young people the essential skills to build positive, enjoyable and non-exploitative relationships.

For the purposes of this policy "**Relationships education**" (**Rel Ed**) is defined as teaching pupils lifelong learning about physical, moral and emotional development. It is about the understanding of the importance of stable and loving relationships, respect, love and care, for family life. It involves acquiring information, developing skills and forming positive beliefs, values and attitudes.

For the purpose of this policy "**Health education**" is defined as teaching pupils about physical health and mental wellbeing, focusing on recognising the link between the two and being able to make healthy lifestyle choices.

Roles and Responsibilities

The Governing Body is responsible for:

- Ensuring all pupils make progress in achieving the expected educational outcomes
- Ensuring the curriculum is well led, effectively managed and well planned
- Evaluating the quality of provision through regular and effective self-evaluation
- Ensuring teaching is delivered in ways that are accessible to all pupils with SEND

- Providing clear information for parents on subject content and their rights to request that their children are withdrawn
- Making sure the subjects are resourced, staffed and timetabled in a way that ensures the school can fulfil its legal obligations
- Ensuring the religious ethos of Longhoughton CE Primary School is maintained and developed through the subjects

The Head teacher is responsible for:

- The overall implementation of this policy.
- Ensuring staff are suitably trained to deliver the subjects.
- Ensuring that parents are fully informed of this policy.
- Reviewing requests from parents to withdraw their children from the subjects.
- Discussing requests for withdrawal with parents.
- Organising alternative education for pupils, where necessary, that is appropriate and purposeful.
- Reporting to the governing board on the effectiveness of this policy.
- Reviewing this policy on an annual basis.

The relationships and health education subject leader is responsible for:

- Overseeing the delivery of the subjects.
- Ensuring the subjects are age-appropriate and high-quality.
- Ensuring teachers are provided with adequate resources to support teaching of the subjects.
- Ensuring the school meets its statutory requirements in relation to the relationships and health curriculum.
- Ensuring the relationships and health curriculum is inclusive and accessible for all pupils.
- Working with other subject leaders to ensure the relationships and health curriculum complements, but does not duplicate, the content covered in the national curriculum.
- Monitoring and evaluating the effectiveness of the subjects and providing reports to the headteacher.

Teachers are responsible for:

- Delivering a high-quality and age-appropriate relationships and health curriculum in line with statutory requirements.
- Using a variety of teaching methods and resources to provide an engaging curriculum that meets the needs of all pupils.
- Ensuring they do not express personal views or beliefs when delivering the programme.
- Modelling positive attitudes to relationships and health education.
- Responding to any safeguarding concerns in line with the Child Protection and Safeguarding Policy.
- Acting in accordance with planning, monitoring and assessment requirements for the subjects.
- Liaising with the SENCO to identify and respond to individual needs of pupils with SEND.
- Working with the relationships and health education subject leader to evaluate the quality of provision.

The SENCO is responsible for:

- Advising teaching staff how best to identify and support pupils' individual needs.
- Advising staff on the use of TAs in order to meet pupils' individual needs.
- **Determining interventions and accessibility to the correct intervention.**
- Ensuring:
 - the needs of all pupils are met
 - the curriculum is fully accessible
 - education, health and care (EHC) plans are followed
 - that teaching is differentiated to support pupils with SEND to fully access the curriculum. This might include revisiting earlier topics or spending longer on a topic.

The specific duties set out in:

- schedule 10 of the Equality Act 2010 to support the participation of disabled pupils
- chapter 6 of the SEND code of practice, to support the participation of pupils with SEND

Curriculum organisation

The delivery of the relationships education and health education coincide with one another and will be delivered as part of the school's PSHE curriculum.

The relationships and health curriculum has been organised in line with the statutory requirements outlined in the DfE (2019) 'Relationships, Education, Relationships and Sex Education (RSE) and Health Education' guidance

The relationships and health curriculum takes into account the views of teachers, pupils and parents. We are dedicated to ensuring our curriculum meets the needs of the whole-school community.

The relationships and health curriculum is informed by issues in the school and wider community to ensure it is tailored to pupil's wider needs and we have consulted with parents, pupils and staff on the development of this policy in line with section 12 of this policy.

Any parent, teacher or pupil wishing to provide feedback about the curriculum can do so at any time during the academic year by contacting the Head Teacher.

When organising the curriculum the religious backgrounds of all pupils will be considered, so that the topics that are covered are taught appropriately.

An overview of Relationships Education and what pupils will know by the end of primary school is at Appendix 1. An overview of Health Education and what pupils will know by the end of primary school is at Appendix 2.

A summary of the content that will be taught is available on the school website and shared with parents in half termly newsletters. (Appendix 3)

Sex Education

The DfE recommends that *all* primary schools should have a sex education programme in place. This should be tailored to the age, and physical and emotional maturity of pupils, and should ensure that

boys and girls are prepared for the changes that adolescence brings, drawing on knowledge of the human life cycle.

All pupils must be taught the aspects of sex education outlined in the primary science curriculum - this includes teaching about the main external parts of the human body, how it changes as it grows from birth to old age, including puberty, and the reproductive process in some plants and animals.

Parents are consulted on the organisation and delivery of our sex education curriculum and are given the opportunity to feedback on what should be taught through sex education.

The age and development of pupils is always considered when delivering sex education.

All staff will use scientifically correct vocabulary to avoid misunderstandings and ambiguity. The words which will be used are: penis, vulva, vagina, testicle, scrotum, breasts and pubic hair.

Resources and Delivery of Curriculum

We will teach the curriculum to reflect the requirements set out in law, particularly the Equalities Act 2010, so that pupils understand what the law does, and does not, allow, and the wider implications of decisions they make.

Our relationships and health education curriculum is designed to prepare all pupils for the future, regardless of sexual orientation or gender identity.

At the point we consider it appropriate to teach pupils about LGBTQ+ Community, we will ensure that this content is fully integrated into the relationships and health curriculum, rather than delivered as a stand-alone lesson.

Pupils will be taught about LGBTQ+ Community from Early Years onwards and formally in Upper Key Stage 2, with a focus on pupils developing an understanding that there are a variety of relationships and family patterns in the modern world. We will always consider the development and maturity of pupils before teaching this topic.

Teachers will ensure that pupils' views are listened to and will encourage them to ask questions and engage in discussion. Teachers will answer questions sensitively, honestly and appropriately to the pupil's age.

We ensure that all teaching resources and materials are appropriate for the age and maturity of pupils, their religious backgrounds and sensitive to their needs.

Inappropriate videos, images etc. will not be used and resources will be selected with sensitivity given to the age, developmental stage and cultural background of pupils.

Any resources or materials used to support learning will be formally assessed by the relationships and health education subject leader before use to ensure they are appropriate for the age and maturity of pupils, meet the outcome of the relevant part of the curriculum, and are in line with the school's legal duties in relation to impartiality.

We are currently using a range of resources to support our curriculum.

Teachers will have the same high expectations of the quality of pupils' work in these subjects as for other curriculum areas. A strong curriculum will build on the knowledge pupils have previously acquired, including in other subjects, with regular feedback provided on pupil progress.

Lessons should be planned to ensure that all pupils of differing abilities are suitably challenged. Teachers will identify and assess the needs of pupils who may require extra support or intervention.

Whilst there is no formal examined assessment for these subjects, we will use tests, written assignments or self-evaluations, to capture progress.

External Partners

External partners may be invited to assist from time to time with the delivery of this programme and will be required to comply with this policy. We will ensure that the teaching delivered by the external partner fits with the planned curriculum and this policy. The use of external partners is to enhance curriculum rather than as a replacement for the teachers delivering the curriculum.

Before delivery of the session we will discuss the partner's lesson plan and any materials the partner intends to use and ensure that the content is age appropriate for the pupils and meets pupil's needs.

We will ensure any external partner complies with the Child Protection and Safeguarding Policy.

Links with other curriculum areas

We seek to draw links between relationships and health education and other curriculum subjects wherever possible. Relationships and health education will be linked to the following subjects in particular :-

- Science - pupils learn about the main external parts of the body and changes to the body as it grows from birth to old age, including puberty.
- English - when literary texts which touch on emotional aspects of relationships are studied in the English curriculum
- Computing - pupils learn about e-safety, including how to use technology safely, responsibly, respectfully and securely, how to keep personal information private and how to access help and support, and how content in computing relates to online and media topic
- PE - pupils explore various physical activities, are physically active for sustained periods of time, engage in competitive sport and understand how exercise can lead to healthier lifestyles.
- Citizenship - pupils learn about the requirements of the law, their responsibilities and the possible consequences of their actions.
- PSHE - pupils learn about respect and difference, values and characteristics of individuals, in the local context and wider community

Consultation with parents and carers

We understand the important role parents play in enhancing their children's understanding of relationships and health. We also understand how important parents' views are in shaping the curriculum.

We work closely with parents by establishing open communication - all parents are consulted in the development and delivery of the curriculum through some of the following:

- Focus groups - including pupil groups
- Meetings - if parents request this prior to puberty work in science
- Newsletters and letters
- Website

Consultation may also take place with the wider school community e.g. governing body, school nurse, Local Authority and Diocese.

Parents are provided with the following information:

- The content of the relationships and health curriculum
- The delivery of the relationships and health curriculum, including what is taught in each year group
- The legalities surrounding withdrawing their child from the subjects
- The resources that will be used to support the curriculum

Right to withdraw from sex education

Relationships and health education are statutory in primary school and parents do not have the right to withdraw their child from these subjects.

Parents have the right to request that their child be withdrawn from some or all of sex education delivered (other than what must be taught as part of the statutory science curriculum). The Headteacher will discuss the request with parents and, as appropriate, with the child to ensure that their wishes are understood and to clarify the nature and purpose of the curriculum. The Headteacher will document this process to ensure a record is kept.

The Headteacher may discuss with parents the benefits of receiving this important education and any detrimental effects that withdrawal might have on the child. This includes social and emotional effects of being excluded, as well as the likelihood of the child hearing their peers' version of what was said in the classes, rather than what was directly said by the teacher

Once those discussions have taken place, the Headteacher will respect the parents' request to withdraw the child except where in respect of content that must be taught as part of the science curriculum.

This process is the same for pupils with SEND. However there may be exceptional circumstances where the head teacher may want to take a pupil's specific needs arising from their SEND into account when making this decision.

The Headteacher will not grant a request to withdraw a pupil from any sex education delivered as part of the science curriculum.

If a pupil is withdrawn from sex education, the pupil will receive appropriate, purposeful education during the period of withdrawal.

Staff training

Teacher wellbeing

- It is essential that teachers can maintain their own wellbeing when delivering the curriculum. There may be times that a topic triggers feelings or thoughts, including of historic, recent or current trauma.
- It is important for school leaders to appreciate the different nature of these subjects, and be understanding of teachers' individual circumstances and the support they may need.
- Leaders will engage teachers in considering their own needs in advance.
- It is important that teaching is balanced and not dependent on any personal views teachers may have. Teachers should operate at all times within the framework of this policy, the Teaching Standards and comply with the Equality Act. There is no obligation on teachers to offer information personal to themselves or to share personal views.
- Teachers are not required to answer personal questions asked by pupils and should consider, with the support of leaders, how best to handle any such questions.

All staff members will receive appropriate training to ensure they are up-to-date with the relationship, sex and health education programme and any associated issues.

Members of staff responsible for teaching the subjects will undergo further training to ensure they are fully equipped to teach the subjects effectively.

Training of staff will also be scheduled around any updated guidance on the programme and any new developments.

The DfE training modules provide some examples of good practice and approaches to support staff preparing to teach about individual subjects.

<https://www.gov.uk/guidance/teaching-about-relationships-sex-and-health#train-teachers-on-relationships-sex-and-health-education>

Bullying and Confidentiality

Any bullying incidents arising out of the relationships and health education, such as those relating to sexual orientation, will be dealt with as seriously as any other bullying incidents in school in accordance with the Behaviour Policy and/or Anti-bullying policies.

Confidentiality within the classroom is an important aspect of relationships and health education and teachers should respect the confidentiality of pupils as far as possible. Pupils will be informed of the

duty of confidentiality and will be made aware of what action may be taken if they choose to report a concern or make a disclosure.

If a teacher has any suspicion of inappropriate behaviour or potential abuse or if any reports are made during lessons as a result of the content of the curriculum this will be reported to the Designated Safeguarding Lead and this will be dealt with in line with the Child Protection and Safeguarding Policy.

Dealing with sensitive issues - Conversations within lessons should not lead to any type of bullying, ostracising or other forms of social or emotional harm. Pupils should be aware of this and lessons should be delivered in such a way to ensure this does not happen.

To help create a safe environment for pupils when teaching these topics, we will consider:

- setting ground rules for lessons, where needed, particularly around not sharing personal information (there is guidance on how to create ground rules in the individual subject training modules)
- stopping discussions if personal information is shared in lessons and following up with pupils later where needed
- not promising confidentiality if a pupil confides something concerning
- telling pupils they can ask for help and they will be taken seriously

Monitoring and evaluating the policy

This policy will be monitored and reviewed on an annual basis by the relationships and health education subject leader and Headteacher.

This policy will also be reviewed in light of any changes to statutory guidance, feedback from parents, staff or pupils, and issues in the school or local area that may need addressing.

The Governing Body is responsible for approving this policy.

Any changes made to this policy will be communicated to all staff, parents and, where necessary, pupils.

Appendix 1

Relationships education overview

Families and people who care for me

By the end of primary school, pupils will know:

1. That families are important for them growing up because they can give love, security and stability.
2. The characteristics of healthy family life, commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other's lives.
3. That others' families, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children's families are also characterised by love and care.
4. That stable, caring relationships, which may be of different types, are at the heart of happy families, and are important for children's security as they grow up.
5. That marriage represents a formal and legally recognised commitment of two people to each other which is intended to be lifelong.
6. How to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed.

Caring friendships

By the end of primary school, pupils will know:

7. How important friendships are in making us feel happy and secure, and how people choose and make friends.
8. The characteristics of friendships, including mutual respect, truthfulness, trustworthiness, loyalty, kindness, generosity, trust, sharing interests and experiences, and support with problems and difficulties.
9. That healthy friendships are positive and welcoming towards others, and do not make others feel lonely or excluded.
10. That most friendships have ups and downs, but that these can often be worked through so that the friendship is repaired or even strengthened, and that resorting to violence is never right.
11. How to recognise who to trust and who not to trust.
12. How to judge when a friendship is making them feel unhappy or uncomfortable.
13. How to manage conflict.
14. How to manage different situations and how to seek help from others if needed.

Respectful relationships

By the end of primary school, pupils will know:

15. The importance of respecting others, even when they are very different from them (for example, physically, in character, personality or backgrounds), make different choices, or have different preferences or beliefs.
16. Which practical steps they can take in a range of different contexts to improve or support respectful relationships.
17. The conventions of courtesy and manners.

18. The importance of self-respect and how this links to their own happiness.
19. That in school and wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including those in positions of authority.
20. About the different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders to report bullying to an adult, and how to seek help.
21. What a stereotype is, and how they can be unfair, negative or destructive.
22. The importance of permission-seeking and giving in relationships with friends, peers and adults.

Online relationships

By the end of primary school, pupils will know:

23. That people sometimes behave differently online, including pretending to be someone they are not.
24. That the same principles apply to online relationships as to face-to-face relationships, including the importance of respect for others online, even when we are anonymous.
25. The rules and principles for keeping safe online.
26. How to recognise harmful content and contact online, and how to report these.
27. How to critically consider their online friendships and sources of information.
28. The risks associated with people they have never met.
29. How information and data is shared and used online.

Being safe

By the end of primary school, pupils will know:

30. What sorts of boundaries are appropriate in friendships with peers and others - including in a digital context.
31. About the concept of privacy and the implications of it for both children and adults.
32. That it is not always right to keep secrets if they relate to being safe.
33. That each person's body belongs to them, and the differences between appropriate and inappropriate or unsafe physical, and other, contact.
34. How to respond safely and appropriately to adults they may encounter (in all contexts, including online) who they do not know.
35. How to recognise and report feelings of being unsafe or feeling bad about any adult.
36. How to ask for advice or help for themselves and others, and to keep trying until they are heard.
37. How to report concerns or abuse, and the vocabulary and confidence needed to do so.
38. Where to seek advice, for example, from their family, their school and other sources.

Appendix 2

Health education overview

The focus at primary level is teaching the characteristics of good physical health and mental wellbeing.

Mental wellbeing

By the end of primary school pupils will know:

39. That mental wellbeing is a normal part of daily life, in the same way as physical health.
40. That there is a normal range of emotions, e.g. happiness, sadness, anger, fear, surprise and nervousness.
41. The scale of emotions that humans experience in response to different experiences and situations.
42. How to recognise and talk about their emotions, including having a varied vocabulary of words to use when talking about their own and others' feelings.
43. How to judge whether what they are feeling and how they are behaving is appropriate and proportionate.
44. The benefits of physical exercise, time outdoors, community participation, and voluntary and service-based activity on mental wellbeing and happiness.
45. Simple self-care techniques, including the importance of rest, time spent with friends and family, and the benefits of hobbies and interests.
46. How isolation and loneliness can affect children and that it is very important they discuss their feelings with an adult and seek support.
47. That bullying (including cyberbullying) has a negative and often lasting impact on mental wellbeing.
48. Where and how to seek support (including recognising the triggers for seeking support), extending to who in school they should speak to if they are worried about themselves or others.
49. That it is common to experience mental ill health and, for the many people who do, the problems can be resolved if the right support is made available, especially if accessed early enough.

Internet safety and harms

By the end of primary school, pupils will know:

50. That for most people, the internet is an integral part of life and has many benefits.
51. About the benefits of rationing time spent online.
52. The risks of excessive time spent on electronic devices.
53. The impact of positive and negative content online on their own and others' mental and physical wellbeing.
54. How to consider the effect of their online actions on others.
55. How to recognise and display respectful behaviour online.
56. The importance of keeping personal information private.
57. Why social media, some computer games and online gaming, for example, are age-restricted.
58. That the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health.

59. How to be a discerning consumer of information online, including understanding that information (inclusive of that from search engines) is ranked, selected and targeted.
60. Where and how to report concerns and get support with issues online.

Physical health and fitness

By the end of primary school, pupils will know:

61. The characteristics and mental and physical benefits of an active lifestyle.
62. The importance of building regular exercise into daily and weekly routines and how to achieve this, for example by walking or cycling to school, a daily active mile, or other forms of regular, vigorous exercise.
63. The risks associated with an inactive lifestyle, including obesity.
64. How and when to seek support, including which adults to speak to in school if they are worried about their health.

Healthy eating

By the end of primary school, pupils will know:

65. What constitutes a healthy diet, including an understanding of calories and other nutritional content.
66. The principles of planning and preparing a range of healthy meals.
67. The characteristics of a poor diet and risks associated with unhealthy eating, including obesity, and other behaviours, e.g. the impact of alcohol on diet or health.

Drugs alcohol and tobacco

By the end of primary school, pupils will know:

68. The facts about legal and illegal harmful substances and associated risks, including smoking, alcohol use and drug-taking.

Health and prevention

By the end of primary school, pupils will know:

69. How to recognise early signs of physical illness, such as weight loss or unexplained changes to the body.
70. About safe and unsafe exposure to the sun, and how to reduce the risk of sun damage, including skin cancer.
71. The importance of sufficient good-quality sleep for good health, and that a lack of sleep can affect weight, mood and ability to learn.
72. About dental health and the benefits of good oral hygiene and dental flossing, including regular check-ups at the dentist.
73. About personal hygiene and germs including bacteria and viruses, how they are spread and treated, and the importance of hand washing.
74. The facts and science relating to immunisation and vaccination.

Basic first aid

By the end of primary school, pupils will know:

- 75. How to make a clear and efficient call to emergency services if necessary.
- 76. Concepts of basic first-aid, for example dealing with common injuries, including head injuries.

Changing adolescent body

By the end of primary school, pupils will know:

- 77. Key facts about puberty and the changing adolescent body, particularly from age 9 through to age 11, including physical and emotional changes.
- 78. About menstrual wellbeing and key facts relating to the menstrual cycle.
